## PROGRAM OF JUDGING

### Events Numbers 2009504905, 2009504906

Judges are not required to wait for dogs. They will adhere as closely as possible to the judging schedule printed in this program. The owner or handler of each dog is solely responsible for having it ready at ringside when it is to be judged. The show-giving Club and Show Secretary have no obligation or responsibility for providing service through a public address system or stewards or runners for the purpose of calling or locating dogs that are not brought into the ring when required. Being an unbenched show, you need to be at the show only in time for your judging and may leave at any time after judging. **There are 62 Dogs totaling 81 entries in this show and trial.** For your convenience, the following class divisions have been carefully tabulated; however, neither the Club nor the Show Secretary assumes responsibility for absolute accuracy.

### SCHDEULE OF POINTS FOR DIVISION 6 - EFFECTIVE MAY 13, 2009

Division 6 is comprised of: Iowa, Kansas, Minnesota,  
Missouri, Nebraska, Wisconsin

The Points toward a Championship shall be awarded to the Winners Dog and Bitch of each breed or variety based on the actual number of dogs or bitches competing in that breed or variety.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Breed or variety, the dogs of both sexes that have been entered for Best of Breed or Variety competition and that have been defeated in such competition, shall be counted in addition to the dogs that competed in the regular classes for its sex in calculating championship points.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Opposite Sex to Best of Breed or Variety, the dogs of its own sex that have been entered for Best of Breed or variety competition that have been defeated in competition for Best of Opposite Sex, shall be counted in addition to the dogs that competed in the regular classes for its sex in calculating championship points.

After points have been computed for Winners Dog and Winners Bitch subject to the above two stipulations, the dog awarded the Best of Winners shall be credited with the number of points calculated for Winners Dog or Winners Bitch, whichever is greater.

In counting the number of eligible dogs in competition, a dog that is disqualified, or that is dismissed, excused or ordered from the ring by the judge, or from which all awards are withheld shall not be included. Any dog which shall have won fifteen points shall become a Champion of Record, if six or more of said points shall have been won at two shows with a rating of three or more championship points each and under two different judges, and some one or more of the balance of said points shall have been won under some other judge or judges than the two judges referred to above.

## GORDON SETTER BREED STANDARD

### SPORTING GROUP

#### General Appearance

The Gordon Setter is a good-sized, sturdily built, black and tan dog, well muscled, with plenty of bone and substance, but active, upstanding and stylish, appearing capable of doing a full day's work in the field. He has a strong, rather short back, with well sprung ribs and a short tail. The head is fairly heavy and finely chiseled. His bearing is intelligent, noble, and dignified, showing no signs of shyness or viciousness. Clear colors and straight or slightly waved coat are correct. He suggests strength and stamina rather than extreme speed. Symmetry and quality are most essential. A dog well balanced in all points is preferable to one with outstanding good qualities and defects. A smooth, free movement, with high head carriage, is typical.

#### Size, Proportion, Substance

**Size**--Shoulder height for males, 24 to 27 inches; females, 23 to 26 inches. Weight for males, 55 to 80 pounds; females, 45 to 70 pounds. Animals that appear to be over or under the prescribed weight limits are to be judged on the basis of conformation and condition. Extremely thin or fat dogs are discouraged on the basis that under or overweight hampers the true working ability of the Gordon Setter. The weight-to-height ratio makes him heavier than other Setters. **Proportion** The distance from the forechest to the back of the thigh is approximately equal the height from the ground to the withers. The Gordon Setter has plenty of bone and substance.

#### Head

Head deep, rather than broad, with plenty of brain room. **Eyes** of fair size, neither too deep-set nor too bulging, dark brown, bright and wise. The shape is oval rather than round. The lids are tight. **Ears** set low on the head approximately on line with the eyes, fairly large and thin, well folded and carried close to the head. **Skull** nicely rounded, good-sized, broadest between the ears. Below and above the eyes is lean and the cheeks as narrow as the leanness of the head allows. The head should have a clearly indicated stop. **Muzzle** fairly long and not pointed, either as seen from above or from the side. The flews are not pendulous. The muzzle is the same length as the skull from occiput to stop and the top of the muzzle is parallel to the line of the skull

extended. **Nose** broad, with open nostrils and black in color. The lip line from the nose to the flews shows a sharp, well-defined, square contour. **Teeth** strong and white, meeting in front in a scissors bite, with the upper incisors slightly forward of the lower incisors. A level bite is not a fault. Pitted teeth from distemper or allied infections are not penalized.

#### Neck, Topline, Body

**Neck** long, lean, arched to the head, and without throatiness. **Topline** moderately sloping. **Body** short from shoulder to hips. Chest deep and not too broad in front; the ribs well sprung, leaving plenty of lung room. The chest reaches to the elbows. A pronounced forechest is in evidence. Loins short and broad and not arched. Croup nearly flat, with only a slight slope to the tailhead. **Tail** short and not reaching below the hocks, carried horizontal or nearly so, not docked, thick at the root and finishing in a fine point. The placement of the tail is important for correct carriage. When the angle of the tail bends too sharply at the first coccygeal bone, the tail will be carried too gaily or will droop. The tail placement is judged in relationship to the structure of the croup.

#### Forequarters

Shoulders fine at the points, and laying well back. The tops of the shoulder blades are close together. When viewed from behind, the neck appears to fit into the shoulders in smooth, flat lines that gradually widen from neck to shoulder. The angle formed by the shoulder blade and upper arm bone is approximately 90 degrees when the dog is standing so that the foreleg is perpendicular to the ground. Forelegs big-boned, straight and not bowed, with elbows free and not turned in or out. Pasterns are strong, short and nearly vertical with a slight spring. Dewclaws may be removed. Feet catlike in shape, formed by close-knit, well arched toes with plenty of hair between; with full toe pads and deep heel cushions. Feet are not turned in or out.

#### Hindquarters

The hind legs from hip to hock are long, flat and muscular; from hock to heel, short and strong. The stifle and hock joints are well bent and not turned either in or out. When the dog is standing with the rear pastern perpendicular to the ground, the thighbone hangs downward parallel to an imaginary line drawn upward from the hock. Feet as in front.

#### Coat

Soft and shining, straight or slightly waved, but not curly, with long hair on ears, under stomach and on chest, on back of the fore and hind legs, and on the tail. The feather which starts near the root of the tail is slightly waved or straight, having a triangular appearance, growing shorter uniformly toward the end.

#### Color and Markings

Black with tan markings, either of rich chestnut or mahogany color. Black pencilling is allowed on the toes. The borderline between black and tan colors is clearly defined. There are not any tan hairs mixed in the black. The tan markings are located as follows: (1) Two clear spots over the eyes and not over three-quarters of an inch in diameter; (2) On the sides of the muzzle. The tan does not reach to the top of the muzzle, but resembles a stripe around the

end of the muzzle from one side to the other; (3) On the throat; (4) Two large clear spots on the chest; (5) On the inside of the hind legs showing down the front of the stifle and broadening out to the outside of the hind legs from the hock to the toes. It must not completely eliminate the black on the back of the hind legs; (6) On the forelegs from the carpus, or a little above, downward to the toes; (7) Around the vent; (8) A white spot on the chest is allowed, but the smaller the better. Predominantly tan, red or buff dogs which do not have the typical pattern of markings of a Gordon Setter are ineligible for showing and undesirable for breeding. Predominantly tan, red or buff dogs are ineligible for showing and undesirable for breeding.

**Gait**

A bold, strong, driving free-swinging gait. The head is carried up and the tail "flags" constantly while the dog is in motion. When viewed from the front the forefeet move up and down in straight lines so that the shoulder, elbow and pastern joints are approximately in line. When viewed from the rear the hock, stifle and hip joints are approximately in line. Thus the dog moves in a straight pattern forward without throwing the feet in or out. When viewed from the side the forefeet are seen to lift up and reach forward to compensate for the driving hindquarters. The hindquarters reach well forward and stretch far back, enabling the stride to be long and the drive powerful. The overall appearance of the moving dog is one of smooth-flowing, well balanced rhythm, in which the action is pleasing to the eye, effortless, economical and harmonious.

**Temperament**

The Gordon Setter is alert, gay, interested, and confident. He is fearless and willing, intelligent and capable. He is loyal and affectionate, and strong-minded enough to stand the rigors of training.

**Disqualification**

*Predominantly tan, red or buff dogs.*
